First Quarter 2025

Disclosures and Forward-Looking Statements

This presentation has been prepared by CION Investment Corporation (NYSE: CION) (the “Company” or “CION”) and may be used for information purposes only. This presentation shall not constitute an offer to sell or the solicitation of any offer to buy any securities. Any such offering of securities will be made only by means of a registration statement (including a prospectus, a prospectus supplement or any related free writing prospectus) filed with the U.S. Securities and Exchange Commission (the “SEC”), and only after such registration statement has become effective.

The information contained herein remains subject to further updating, revision, and amendment without notice. It should not be relied upon as the basis for making any investment decision, entering into any transaction or for any other purpose. This information is not, and under no circumstances is to be construed as, a prospectus or an offering memorandum as defined under applicable securities legislation. The information contained herein does not set forth all of the terms, conditions and risks of the Company.

This presentation may contain forward-looking statements that involve substantial risks and uncertainties, including the impact of tariffs and trade disputes with other countries, inflation, high interest rates and the risk of recession on the business, future operating results, access to capital and liquidity of the Company and its portfolio companies. You can identify these statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “project,” “target,” “estimate,” “intend,” “continue,” or “believe” or the negatives thereof or other variations thereon or comparable terminology, including references to assumptions, forecasts of future results, shareholder diversification, institutional research coverage and availability and access to capital. You should read statements that contain these words carefully because they discuss the Company’s plans, strategies, prospects and expectations concerning its business, operating results, financial condition and other similar matters. These statements represent the Company’s belief regarding future events that, by their nature, are uncertain and outside of the Company’s control, such as the price at which the Company’s shares of common stock will trade on the NYSE. Any forward-looking statement made by the Company in this presentation speaks only as of the date on which the Company makes it. Factors or events that could cause the Company’s actual results to differ, possibly materially from its expectations, include, but are not limited to, the risks, uncertainties and other factors the Company identifies in the sections entitled “Risk Factors” and “Forward-Looking Statements” in filings the Company makes with the SEC, and it is not possible for the Company to predict or identify all of them. The Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Nothing in these materials should be construed as a recommendation to invest in any securities that may be issued by the Company or as legal, accounting or tax advice. An investment in securities of the type described herein presents certain risks. The Company, its investment adviser and their respective subsidiaries and affiliates and their respective employees, officers and agents make no representations as to the completeness and accuracy of any information contained within this written material. As such, they are not responsible for errors and/or omissions with respect to the information contained herein except and as required by law.

In considering investment performance information contained in this presentation, bear in mind that past performance is not necessarily indicative of future results and there can be no assurance that the Company will achieve comparable results. Actual realized value of currently unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the current unrealized valuations are based. Accordingly, the actual realized values of unrealized investments may differ materially from the values indicated herein.

Certain information contained in this presentation has been obtained from published and non-published sources and/or prepared by third parties and in certain cases has not been updated through the date hereof. Such information has not been independently verified by the Company and the Company does not assume responsibility for the accuracy of such information (or updating the presentation based on facts learned following its issuance).

(1) The loss rate since inception of operations in December 2012 is calculated as the aggregate investment cost at write-off, less (i) any economic benefit realized during the loan (interest and fees) and (ii) any economic recovery, over total invested capital. This rate is presented on an annualized basis.

History of Value Creation

Credit Portfolio is Focused on First Lien Loans

Differentiated Investment Platform

CION's unique platform drives selectivity, efficiency and focus

Sourcing Powered by Strong Network

- Direct first lien and club investments based on deep, long-standing relationships with like-minded partners, including other leading private and public lenders
- Internal direct origination efforts provides a unique and proprietary flow of transactions
- Robust origination funnel allows for high degree of selectivity

Organizational Flexibility Generates Efficiency

- Flat organization and highly involved Investment Committee results in an efficient, dynamic culture
- Emphasis on pre-screening and “front-loading” of critical underwriting issues combined with iterative approach results in timely feedback/responses to partners and borrowers

Size & Scale Provides Competitive Advantage

- Attractive scale in niche market; large enough to be impactful but not pressured to buy the market
- Flexibility to invest across a borrower's capital structure without technical restrictions or limitations

CION is Exclusive Focus of Investment Team

- CION is the exclusive focus of the investment team providing tremendous attention and efficiency to sourcing, underwriting and portfolio management
- Portfolio managers have one distinct fiduciary duty and not required to satisfy differing objectives and legal/regulatory considerations of multiple feeder funds on platform

Sourcing Strategy Drives Selectivity

CION's open architecture origination approach capitalizes on a deep and diverse network of highly experienced and like-minded partners:

- Private and Public Lenders
- Select middle market PE sponsors
- Large cap PE sponsors, on a limited basis
- Investment Banking / Advisory Firms
- Lightly syndicated loans

- Relationships are deep, long-term and personal; often date back for decades
- Loan pipeline is comprised of opportunities pre-screened by blue-chip origination partners
- Familiarity leads to efficient internal vetting, evaluation and diligence
- Increases pool of relative value opportunities

Sourcing strategy enables CION to be highly selective with a diverse array of high-quality opportunities, which results in an investment portfolio with unique exposure across the middle market spectrum. This optimizes the transaction funnel, which we believe provides relative value in all markets

Investment Strategy

CION drives investor returns primarily through a first lien focus supplemented with select, opportunistic investments

CORE

- First lien primarily, with unitranche and second lien
- Companies with EBITDA between \$25-\$75 million; target \$20 million initial hold sizes
- 87.0% senior secured loans and 99.8% of portfolio companies with PE and financial institution sponsorship⁽¹⁾

OPPORTUNISTIC

- Selectively target higher return / special situations in the secondary loan market through the purchase of illiquid, lightly syndicated first lien loans offered at a discount due to credit rating / technical considerations or higher quality BDC / loan portfolios

JOINT VENTURE

- Strategic JV formed in December 2021 with an affiliate of EagleTree Capital, a leading middle-market private equity firm, which jointly pursues higher yielding debt and equity opportunities, as well as special situation, crossover, subordinated and other junior capital investments
- Principals of EagleTree and CION have worked and partnered together on transactions for over 25 years

Fund Flexibility and Scale are Highly Advantageous

CION has attractive scale within its niche market along with investing flexibility

- At \$1.9 billion in total assets⁽¹⁾, CION is a scaled BDC with enough influence to have “a voice at the table”
- Flexibility to invest across a borrower’s capital structure without technical restrictions and limitations
- Source across a plethora of private equity sponsors and public lenders, direct lenders and other debt platforms
- Not beholden to a small set of sponsors or partners that require off-market or sub-quality investments to sustain the relationships
- Allows team to focus on originating the most attractive assets
- One of the few BDCs investing in the \$25 – \$75 million EBITDA range, a true middle market lender

CION has the scale to be impactful in the middle market but is agile enough to remain “fully invested” without lowering its underwriting standards.

Solid Performance and Current Valuation

Recent Developments

- During the three months ended March 31, 2025, CION repurchased 185,862 shares of its common stock under its 10b5-1 trading plan at an average price of \$11.68 per share for a total repurchase amount of \$2.2 million. Through March 31, 2025, CION repurchased a total of 3,955,033 shares of its common stock under its 10b5-1 trading plan at an average price of \$10.23 per share for a total repurchase amount of \$40.5 million.

- On February 13, 2025, CION terminated its existing senior secured repurchase facility with UBS AG (“UBS”) and simultaneously entered into a new 3-year, \$125 million senior secured credit facility with UBS, under which the floating interest rate payable by CION on all advances was reduced by 0.45% per year, from the three-month SOFR plus a credit spread of 3.20% per year to SOFR plus a credit spread of 2.75% per year.
- On May 5, 2025, CION’s co-chief executive officers declared a second quarter 2025 base distribution of \$0.36 per share, payable on June 16, 2025 to shareholders of record as of June 2, 2025.

Conclusion

CION offers investors a differentiated investment platform and strategy built over a decade of operations

High-quality portfolio focused on senior secured loans, primarily first lien

Sourcing, origination & investment pipeline product of strong network not easily replicated

Underwriting anchored to rigorous credit culture

Experienced team with long track record of consistent performance

Conservative leverage, with potential meaningful increase to drive investment income growth

Internal Investment Risk Rating Definitions

Rating Definition

- 1 Indicates the least amount of risk to our initial cost basis.
The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit.
- 2 Indicates a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition.
This portfolio company is generally performing in accordance with our analysis of its business and the full return of principal and interest or dividend is expected.
- 3 **Indicates that the risk to our ability to recoup the cost of such investment has increased since origination or acquisition, but full return of principal and interest or dividend is expected.**
A portfolio company with an investment rating of 3 requires closer monitoring.
- 4 Indicates that the risk to our ability to recoup the cost of such investment has increased significantly since origination or acquisition, including as a result of factors such as declining performance and noncompliance with debt covenants.
We expect some loss of interest, dividend or capital appreciation, but still expect an overall positive internal rate of return on the investment.
- 5 Indicates that the risk to our ability to recoup the cost of such investment has increased materially since origination or acquisition and the portfolio company likely has materially declining performance.
Loss of interest or dividend and some loss of principal investment is expected, which would result in an overall negative internal rate of return on the investment.
